SUBJECT: Future Inc

To whom it may concern,

The intent of this letter is to advise on my experience with Future Inc on the OSU Baseball Stadium project in Stillwater Oklahoma in 2019. I had the pleasure of working with Todd and his crews on the baseball project and truly wish they would have been my dirt contractor in the first place. My subcontractor was desperately behind and did not have the manpower or equipment to catch up to the project schedule. I was advised that Future Inc. had successfully completed work with Manhattan on other projects so I reached out to Future Inc to see what the chances of them helping us regain some schedule. Future Inc. jumped at the opportunity and was mobilized within two days. Within two weeks Future Inc had completed more work than my subcontractor could have completed in two months. The professionalism and dedication to my project was impressive and I hope I can find a way to work with this company again in the near future.

Sincerely,

Chad Kendrick
Sr. Project Manager
