

November 20,2020

**To whom it may concern,**

Future Inc. has worked with us and completed the earthwork on multiple sport projects. My experience with Future Inc. is as follows: Todd Bugg's professionalism and work ethic is far superior to any other earthwork contractor I have worked with in this field. They always arrive to the project on time, complete the full scope, and always complete the projects ahead of schedule. I would highly recommend them for any earthwork projects I am associated with.

Below is a list of some of the projects that Future Inc. has completed with me.

- Harrah practice field and track
- Putnam City North
- Putnam City West
- Putnam City Baseball Fields
- Farrington Field
- Herman E. Clark Stadium
- North Forney High School
- Barnett Stadium
- Rockwell Heath Football field
- Rockwell Football Field
- Butler Stadium
- Hanley Field
- Legacy Christian Academy
- University of Texas – San Antonio (UTSA)

**Sincerely,**

**Doug Morgan**
